

KK

AC electric brake motors with cone squirrel-cage rotor, designed for travelling mechanisms. single and double speed modifications.

Pole number $2p = 2; 4; 2/8; 4/12; 4/16$.

Rated power from 0,045 up to 3 kW.

General data:

- Protection degree as per DIN40050 - IP44 or IP54; brake resistance - IP22
- Flange mounting - types AK (B5 - DIN 42677), Kor KG
- Axial shaft run- 0,5 to 1 mm
- Cycling duration factor - 10/25; 10/40; 20/40; 25/50; 25; 40%
- Frequency of operations - 120; 240; 300 h
- Optional overheat protection
- Voltage and frequency modifications
- For normal (N), tropical (TII) or sea worthy (M) climatic environment.
